

About Modern Fan Controls

Modern Fan ceiling fans do not use pull chains (except for the Industry model). Therefore, in order to operate your fan at different speeds and switch your light independently of your fan, you need to select the appropriate control. All controls (except the 009A and 009B) are designed for use with one fan only.

Any ceiling fan using a fluorescent lamp may not be dimmed or operated with a dimming control. Non-dimming versions of Modern Fan controls are available for all models making use of fluorescent lamps. When ordered alone, non-dimming controls are designated by the suffix "ND". Any control ordered with a fan that has been supplied with an energy saving CFL will be supplied in a non-dimming version.

Please see below for further details on the various controls available from Modern Fan.

001 - Fan Speed Control

A basic fan control used to operate a fan only, providing four speeds.

#001 - Fan Speed Control

002/002ND - Three Wire Fan Speed and Light Control

Intended for operation of a fan with light, providing four speeds and full range dimming (except fluorescent lights, use 002ND non-dimming for fluorescent lighting). Requires two circuits (three wires).

#002 - Three Wire Fan Speed and Light Control

003/003ND - Handheld Remote Control

Designed for independent operation of a fan and light using only one circuit (two wires). Provides three speeds and full range dimming (except fluorescent lights, use 003ND non-dimming for fluorescent lighting) and comes with a wall hanging bracket.

#003 - Handheld Remote Control

004/004ND - Two Wire Fan Speed and Light Control

Designed for independent operation of a fan and light using only one circuit (two wires). Provides three speeds and full range dimming (except fluorescent lights, use 004ND non-dimming for fluorescent lighting) and wires into wall box.

#004 - Wall Mounted Remote Control

005/005ND - Wall Control with Remote Handset

A combination control package including the 004 Fan & Light Control and the 003 Remote Control handset. Provides three speeds and full range dimming (except fluorescent lights, use 005ND non-dimming for fluorescent lighting) from wall control and compatible remote handset.

#005 - Wall Control With Remote Handset

009/009B - Multi-Fan Speed Control

A three speed fan control designed to control two fans (#009A) or three to five fans (#009B) on a single circuit. Separate control of lights should be planned for if this control is to be used for fans with lights.

#009 - Multi-Fan Speed Control
