

KELVIN T ADJ BASE

Mounting	: Table
Lamps description	: 1 x MAX 40W G9 HSGS/F
Environment	: Indoor
Finish	: Aluminum, Black
Technical description	: Table luminaire providing direct light with double pantograph arm and adjustable head. Cold-molded aluminum alloy reflector with liquid matt white paint on the inside. Injection-molded polycarbonate outer head with transparent or black finish. Zamak alloy outer coating on the base with glossy chrome-plated or glossy black liquid-painted finish. Extruded aluminum alloy square tube (12x12mm) structure, machined to house the stainless steel load compensation springs and injection-molded acetal resin sliding blocks. 3mm. diameter wire for the polished outer tie rods. Transparent or polished black-painted finish.

ELECTRICAL

Emergency	: Without
Switching	: ON/OFF switch in molded aluminum alloy container and, for the fluorescent version, electronic ballast and switch inserted in the transparent polycarbonate box under the switch.
Voltage (V)	: 220/240

PHYSICAL

Shape	: Base square
Supply	: Power cord
Cord length(mm)	: 1500
Construction material	: Aluminum or Polycarbonate
Weight (kg)	: 6,1
Minimum distance from illuminated object (mm)	: 200

Kelvin T ADJ Base
design by Antonio Citterio with Toan Nguyen

Table luminaire providing direct light with double pantograph arm and adjustable head.
